YOUR CBD SUPERSTORE

FOR PEOPLE AND PETS

U.S. and Canadian Made
Nationally Recognized
Globally Endorsed

MY CBD INFO & DISCOUNTED PRICE LIST

Scroll down to see all of my discounted 85 CBD products for people and pets…. Current and retired military personnel, those on long-term government disability or those on government financial assistance [SNAP, Medicaid, CHIP, TANF and childcare assistance] get 50% off MSRP prices!

Our fall/ winter harvest has brought us another bumper crop of cannabinoid-rich, terpene-rich Cannabis Sativa plants loaded with the best quality CBD… you'll be getting the freshest, highest potency, best quality CBD at the lowest prices in the industry… **GUARANTEED**! Not to mention the absolute best, most knowledgeable client service in the industry, provided by me personally!

I'm always sad to see people ordering CBD products or supplements from companies or from so-called 'holistic veterinarians', all of whom have great websites, great FB pages and excellent marketing for the very unknowledgeable, very gullible suckers who buy their products which don't work, are very bad and so are their prices… the only way many CBD companies can move their products is to have sales every week and it's certainly no good buying a product that doesn't work regardless of how low the price or how good the marketing…

… regardless of what CBD companies say, most all of them sell over-priced, white-labelled junk… the people I'm associated with control ***everything*** from seed to planting to harvest to extrusion to final product, assuring you and your pets the very best quality control and the very best CBD products in the industry!

You have to know which CBD product(s) to buy i.e. pure, undiluted CBD in a syringe, isolate, broad spectrum, full spectrum, etc and what potencies to buy [125mg-5000mg], how often to administer daily and at what amounts, etc… I will personally help you and work with you and your pets.

As my many thousands of existing clients already know that to place an order and if there is no address change and the same form of payment is to be used as your last order, simply email me, contact me on FB or phone me on my private toll-free # with your order and it will be shipped out right away.

For new clients to place an order, simply email me [roger@yourcbdsuperstore.com] your full name, mailing address and your order. You will be emailed an invoice… phone me toll-free [1-833-816-2886] with your credit card info [we accept Visa & MasterCard], a transaction receipt will be emailed to you and we also accept personal checks and give additional discounts for cash payments.

Shipping for all orders is $9.00 [**FREE SHIPPING AT $100!**] and we ship from Carlsbad, CA by USPS Insured Priority Parcel Post with tracking [usually 2-day delivery anywhere in the continental U.S.] and by USPS Priority Mail International with tracking, International rates apply.

Taking 10mg CBD daily of a good / high potency / full spectrum CBD tincture like my 1100mg Extra Strength is the absolute very best preventative daily supplement a pet / human can take, with a bottle lasting almost 4 months… very, very inexpensive for the boatloads of health benefits with ZERO harmful side effects! My super-healthy 211-month-old Husky and I share the same CBD bottle 2X daily and as you can see from the video, he still has the energy of a 6yr old!

CBD AND COVID-19

While CBD [cannabidiol] has boatloads of health benefits for people and pets with no harmful side effects, scientific research and studies are now coming out about the huge health benefits of CBD for Covid-19… some of these include:

- New Research Suggests Terpenes And CBD Work 2X's Better For Covid-19 Inflammation Than Corticosteroid
- Cannabidiol Inhibits SARS-CoV-2 Replication and Promotes the Host Innate Immune Response
- COVID-19: Scientists Have High Hopes For Potential Breakthrough CBD Virus Blocker
- Researchers look to CBD as possible treatment for most deadly COVID-19 symptom
- Evidence CBD May Reduce Cytokine Storm And Inflammation In COVID-19
- Move Over, Antibiotics: Experts Discover CBD Has Antibiotic Properties
- Preliminary Study Suggests CBD May Help To Fight Covid-19
- CBD May Help Avert Lung Destruction In COVID-19

Besides the health benefits of taking CBD for COVID-19, here's some of the boatloads of health benefits that good, high potency, full spectrum CBD has been shown to help people and pets with:

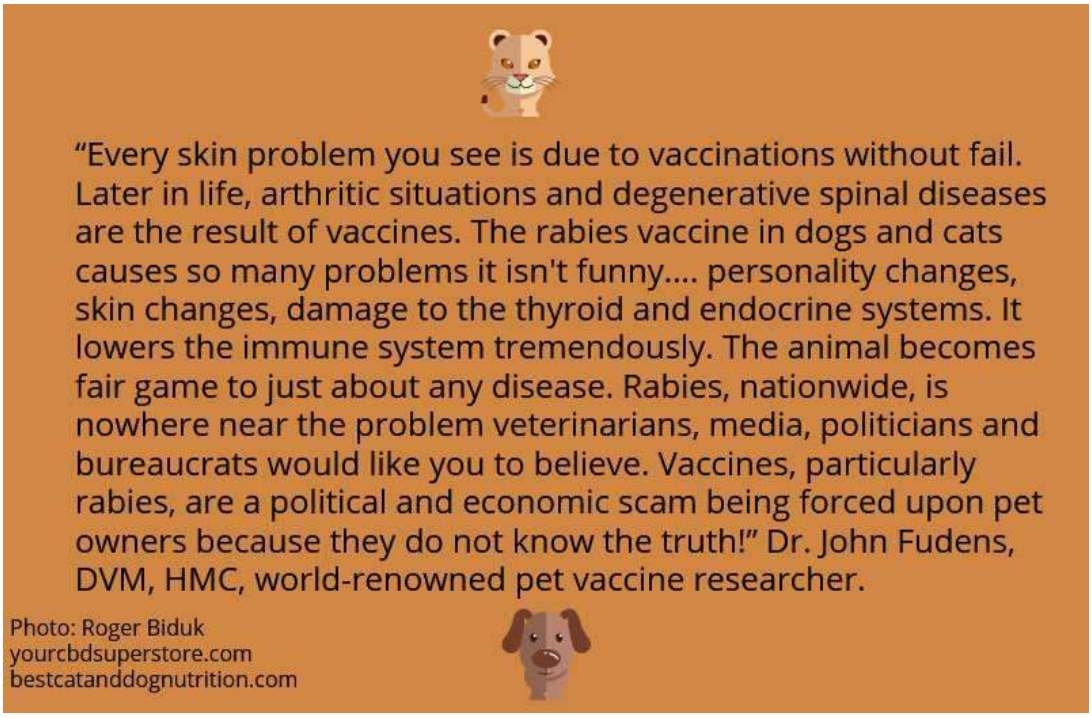

- Reduces or stops seizures and convulsions
- Reduces small intestine contractions
- Promotes immune system function
- Inflammatory Bowel Disease [IBD]
- Reduces risk of artery blockage
- Irritable Bowel Syndrome [IBS]
- Reduces vomiting and nausea
- Reduces blood sugar levels
- Suppresses muscle spasms
- Inhibits cancer cell growth
- Promotes bones growth

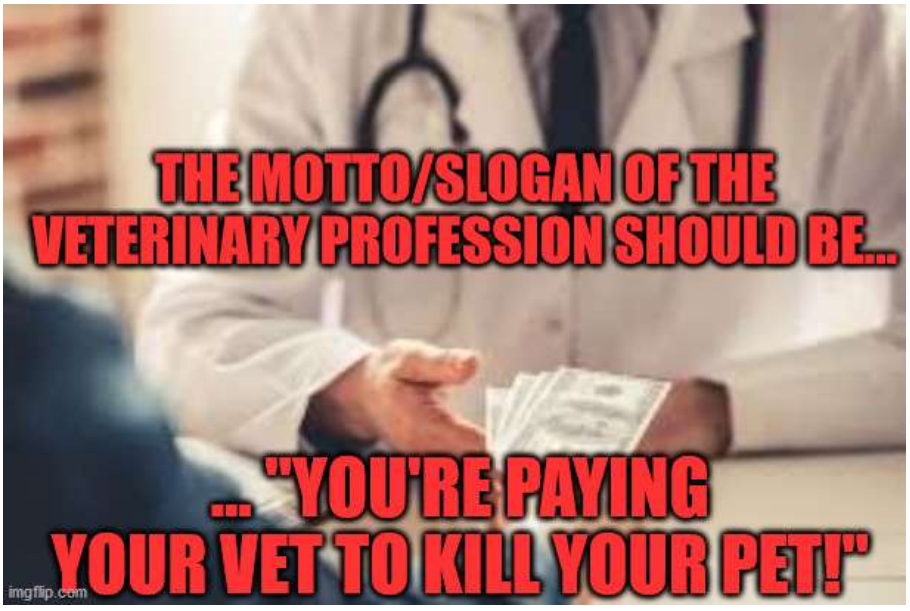

- Antibacterial properties
- Slows bacterial growth
- Reduces inflammation
- Helps with Psoriasis
- Multiple Sclerosis
- Neuro protective
- Relieves anxiety
- Crohn's Disease
- Kidney disease
- Schizophrenia
- Mood swings
- Relieves pain
- Vasorelaxant
- Fibromyalgia
- Liver disease
- Parkinson's
- Depression
- Epilepsy
- Arthritis
- Autism
- PTSD

ABOUT YOUR PETS

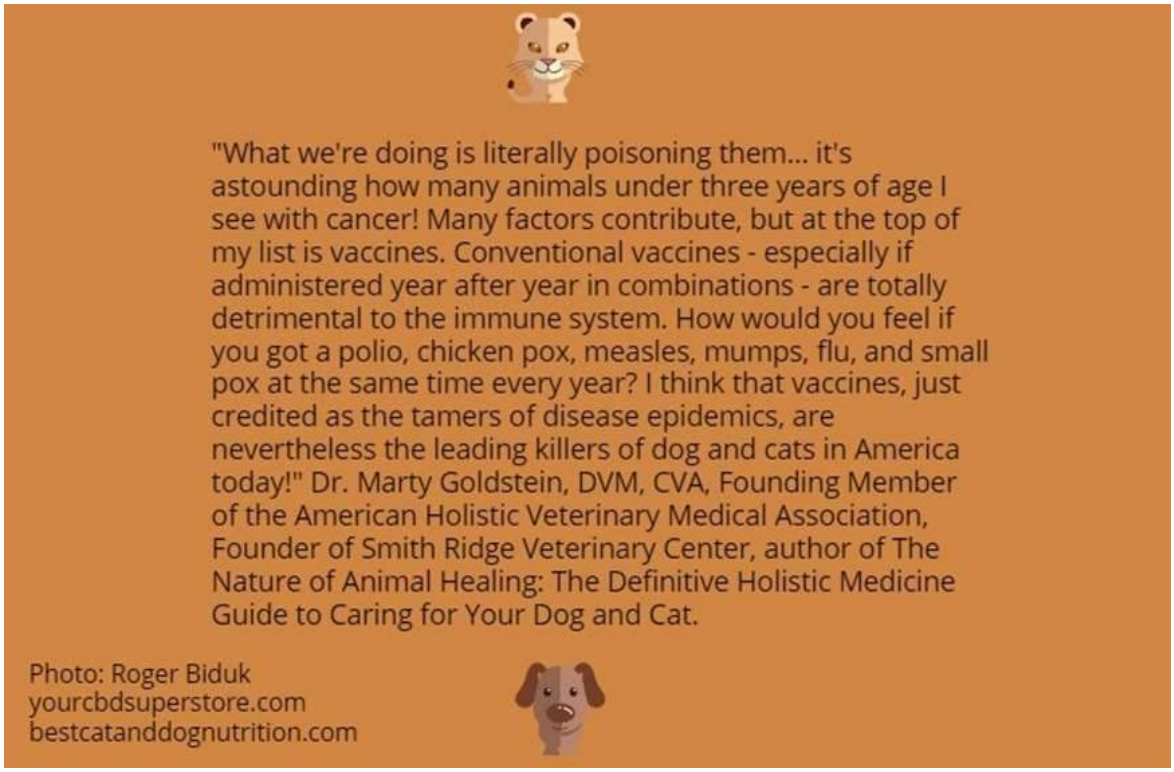

ALWAYS REMEMBER!: Almost 100% of all ailments / illness / disease / premature death in kittens / pups / cats / dogs are preventable and are almost 100% caused by the veterinary profession because of vaccinations and neurotoxic, carcinogenic worm / tick / flea / heartworm poisonous chemical pesticides in the form of pills, topical applications, shampoos, collars and injections and then most often made much, much worse with prescription drugs and horrible, very dangerous 'prescription diets' while pet parents get robbed tens of thousands of $$$$!

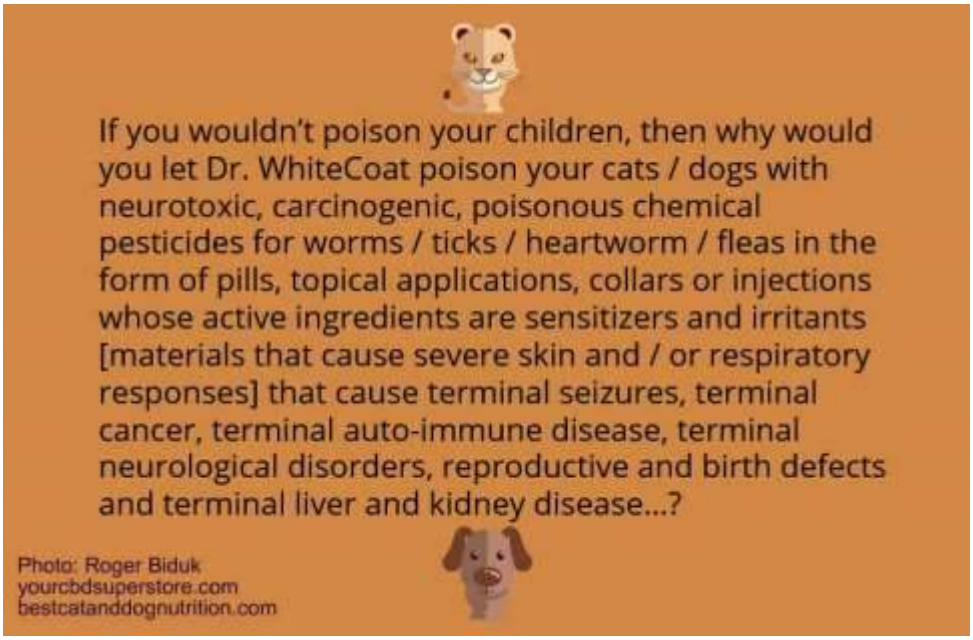

If you never vaccinate your cat / dog for anything, never poison them with neurotoxic, carcinogenic poisonous chemical pesticides and feed them a very simple / balanced [muscle meats, organ meats, meaty bones] / inexpensive [costs me CDN$40 [USD$30] / month to feed my 61lb Husky!] / moisture-rich / enzyme-rich / raw or very lightly cooked [still raw on the inside] 100% meat diet, they will avoid 100% or almost 100% of all ailments / illness / disease / premature death while pet parents will avoid most all Dr. WhiteCoat bills $$$$!

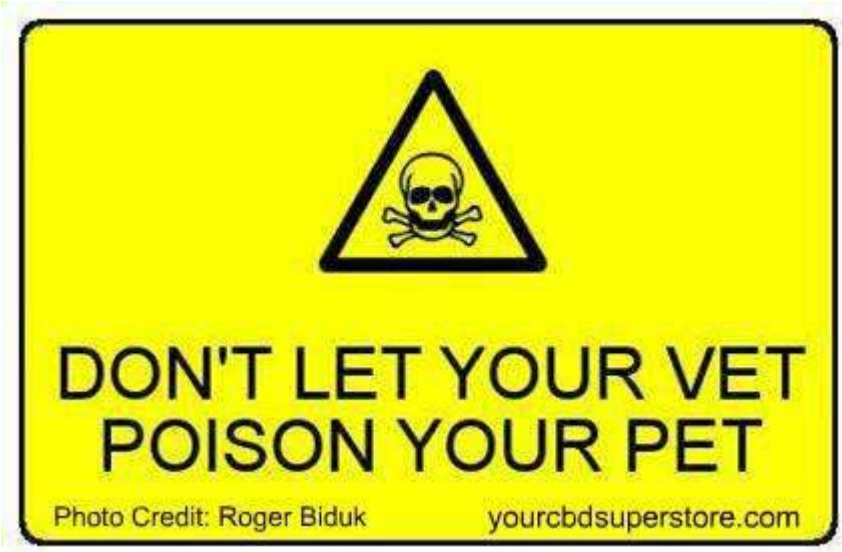

"Immunologist Dr. H. Hugh Fundenberg, MD, A.B., M.A. [Immunochemistry] says if your dog receives just one monovalent vaccine, his cell-mediated immunity will be cut in half … and just two vaccines will lower it by 70%! ANY and ALL vaccines are way, way too much! Ever see a giraffe get a vaccine? Are you thinking yet?" Dr. Terry Tillaart, PhD

NEVER, EVER poison your pets with neurotoxic, carcinogenic poisonous chemical pesticides whose active ingredients are sensitizers and irritants [materials that cause severe skin and / or respiratory responses] that cause terminal seizures, terminal cancer, terminal auto-immune disease, terminal central nervous system and terminal neurological disorders, reproductive and birth defects and terminal liver and kidney disease along with many, many other ailments / illness / disease / premature death which may include ProHeart 6, ProHeart 12, Revolution, Bayer Advantage, Bayer Advantage II, Bayer K9 Advantix II, Bayer Advocate, Hartz UltraGuard Pro, Hartz UltraGuard Plus Flea & Tick Dog Spray, Hartz UltraGuard Plus Topical Flea & Tick Prevention, Hartz UltraGuard Plus Flea & Tick Treatment for Cats, Hartz UltraGuard Plus Flea & Tick Shampoo, Hartz

First Defense, Bravecto, Bayer Seresto, Interceptor, Heartgard, Parastar, Parastar Plus, Pentagon, Parastar, Parastar Plus, Johnston's Veterinary, Heartgard Plus, Sargeant's, Sergeant's [GOLD, Skip] Flea & Tick Shampoo, Sergeant's Dual Action Flea & Tick Collar, Coraxis, PetLock, PetArmor, Easecto, Credelio, Tri-Heart Plus, Vectra 3D, Capstar, Sentinel, Frontline, Safe-Guard, Trifexis, NexGard, Simparica, Comfortis, Zodiac, Prowormer, Nemex 2, Droncit, Drontal Plus, Panacur, Hjeartgard Chewables, Iverhart Plus, Iverhart, Zimectrin or Advantage Multi among many others!

Here's just a few FB groups where tens of thousands+ of cats / dogs have died horrible, agonizing deaths from these neurotoxic, carcinogenic, poisonous chemical pesticides:

- BAYER SERESTO COLLARS OF DEATH!
- IS BRAVECTO SAFE OR IS BRAVECTO KILLING PETS?
- BRAVECTO, NEXGARD, COMFORTIS, SIMPARICA, TRIFEXIS & OTHERS... DO THEY KILL DOGS?
- ACTION AGAINST NEXGARD USA
- DOES NEXGARD KILL DOGS?
- DOES COMFORTIS KILL DOGS?
- DOES TRIFEXIS KILL DOGS?
- TRIFEXIS KILLS!
- FLEA AND TICK MEDICATIONS ARE KILLING ANIMALS

For pain, inflammation and mobility issues including arthritis, hip dysplasia, degenerative myelopathy, luxating patella, CCL, ACL injuries, etc, **NEVER** give NSAIDs or narcotic opioids because they all have no healing benefits and very, very serious side effects including death… for the above-mentioned health issues, my clients have had huge success for their pets with zero side effects with my high potency Professional Veterinary Strength 1100mg Holistic CBD Tincture for Pets 1100mg, THC Free Max Strength 3,000mg Pure CBD Tincture For Pets, THC Free Max Strength 5,000mg Pure CBD Tincture For Pets and my pure, undiluted 17% Hemp CBD Decarboxylated Oil 10gm syringe.

NEVER feed kibble which causes pain and inflammation because of the extremely low moisture content of 10%, the horrible / extremely dangerous, 100% non-human-grade ingredients and sky-high, garbage, very dangerous starch & sugar content which can be 60%+ carbohydrates!

I personally know of 1600+ cats and dogs who have died from liver and / or kidney failure and many other illnesses / diseases caused by Gabapentin [not even a pain med and not approved for dog use!] and very dangerous and often deadly NSAIDs including Rimadyl (Carprofen), Novocox (Carprofen), Vetprofen (Carprofen), Carprieve (Carprofen), Quellin (Carprofen), Carprodyl F [Carprofen], Novox [Carprofen], Zenecarp [Carprofen], Zinecarp [Carprofen], Canidryl [Carprofen], Aventicarp [Carprofen], Rycarfa [Carprofen], Rimifin [Carprofen], Carpox [Carprofen], Tergive [Carprofen], Norocarp [Carprofen], Carprovet [Carprofen]. Rovera [Carprofen], Levafen [Carprofen], Metacam (Meloxicam), OroCAM (Meloxicam), Loxicom (Meloxicam), Meloxidyl (Meloxicam). Mobic [Meloxicam], Vivlodex [Meloxicam], Rheumocam [Meloxicam], Anjeso [Meloxicam], Qmiiz ODT [Meloxicam], Deramaxx (Deracoxib), Previcox (Firocoxib), Etogesic (Etodolac), Zubrin (Tepoxalin), Galliprant, Amitriptyline [antidepressant], Dexamethasone [steroid], Prednisolone [steroid] and narcotic opioids Tramadol, Butorphanol, Buprenorphine, Codeine, Dihydromorphinone, Hydromorphone, Morphine and Fentanyl among others! **NEVER** give Fluffy / Fido any of these or any other NSAIDs or narcotic opioids… give a good high potency CBD and cannabis oil!

My FB post 'SEIZURES ARE CAUSED BY BIGPHARMAMAFIA, DR. WHITECOAT AND THE VETERINARY PROFESSION AND THEN MOST OFTEN MADE WORSE BY THE 'TREATMENTS' $$$$... HERE'S EVERYTHING YOU NEED TO KNOW AND WHAT TO DO' goes into detail of the success using the right CBD and the very dangerous / often deadly drugs that most often don't work and their huge, huge amount of deadly side effects including the most prescribed by the veterinary profession which are:

- Bromide [KBr or K-BroVet Potassium Bromide]
- Phenobarbital [PB]
- Levetiracetam
- Clonazepam
- Clorazepate
- Gabapentin
- Zonisamide
- Felbamate
- Primidone
- Diazepam
- Phenytoin
- Keppra
- Valium

My clients have had huge success for their pets with zero side effects stopping seizures completely or drastically reducing them to almost nothing with my high potency Professional Veterinary Strength 1100mg Holistic CBD Tincture for Pets 1100mg along with my THC Free Max Strength 5,000mg Pure CBD Tincture For Pets and my pure, undiluted full spectrum 17% CBD Decarboxylated Oil 10gm syringe.

Cats / dogs do not get 'allergies' / 'ear infections'… along with itchiness and bad skin / coat, those are signs of a decimated immune system from vaccinations and pesticides and made worse with deadly immunosuppressants which includes Atopica [Cyclosporine], Apoquel [Oclacitinib] and steroids [most always deadly Prednisone] with very harmful Cytopoint injections thrown in … **NEVER, EVER** give any of these to your dog!

- Apoquel and Cytopoint FB Group
- Apoquel: Dog Miracle Drug With a Dark Side
- Apoquel: When a Short-Term Dream Becomes a Long Term Nightmare
- Apoquel: Vet Says Beware The Side Effects
- Cytopoint: High Tech Answer to Your Itchy Dog?
- AVOID DEADLY STEROIDS AND THE VERY BAD, DANGEROUS VETS WHO PRESCRIBE THEM!

THE ONLY LOWEST PRICE GUARANTEE IN THE CBD INDUSTRY!

Besides having the largest CBD product line for people and pets of the absolute best quality CBD products, I also offer the only lowest CBD price guarantee to be found anywhere… even when CBD companies have their products on sale [not to mention the quality of their products no where match mine and my personal client service is unbeatable!], their sale prices are most often more expensive than my everyday low prices and in the rare occasion when they're not and while of course certain conditions apply, *I will match any regular or sale price of the same type product sold by any reputable CBD company*!

What most all people don't know is most all CBD companies DO NOT make their own products… their whole product line is white labelled. A white labelled product is one that is made by a manufacturer / distributor that uses the branding / labelling requested by the purchasing company, making people believe that company they're buying CBD from makes their own products and in many cases, there can be noticeably big, dangerous issues with the quality and safety of their CBD products!

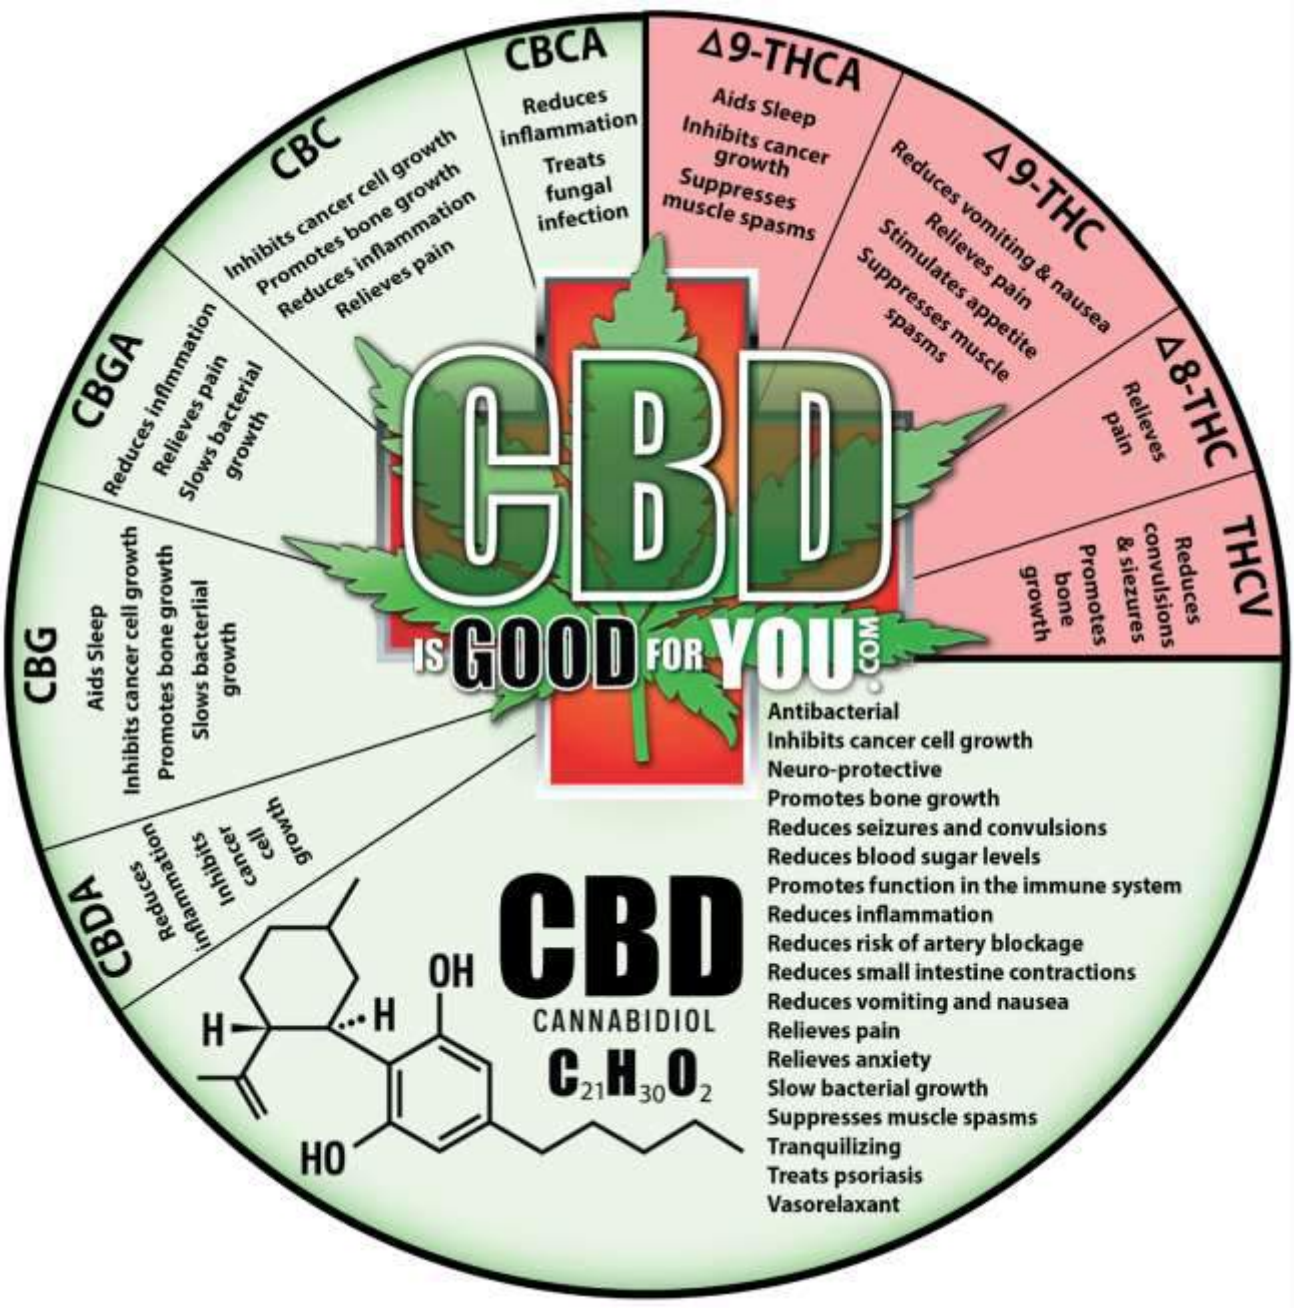

Of the 146 CBD companies I did due diligence on between 2016-21, only four companies were any good! For example, while every CBD company has fabulous websites saying their products are the lowest price, the very best organic ingredients with 3rd party independent testing, blah, blah, blah, more and more CBD products are being recalled for several reasons including containing very dangerous ingredients… some of these include:

- FDA Issues Recall for Kore Organic CBD Products Containing Almost 10X The Legal Limit For Lead
- FDA Says More CBD Products Recalled Over High Levels Of Lead
- Biota Biosciences Issues Voluntary Nationwide Recall of Cannabidiol (CBD) Because They Were Marketed Without FDA Approval
- CBD Manufacturer Recalls Injectable Products After FDA Warning

Below is my products & discounted price list… not only is this the most extensive CBD product line for people and pets [52 CBD products for people, 33 CBD products for pets] to be found anywhere, they are the best quality CBD products I've found out of 146 CBD companies I've done due diligence on and I **ALWAYS** offer them everyday at industry-low prices… **GUARANTEED**!

The pictures at the end of my price list give some great insights / benefits of CBD for people / pets. Any questions / comments, ***never hesitate*** to contact me by email, Facebook or my private toll-free from 09:00 – 23:00 EST 7days / week and I'll take care of you personally.

Opioids Vs. CBD

Over 140 people in the United States die daily from overdosing on opioids. This means every 3 weeks, death tolls from the US opioid crisis equal those from 9/11.

0

To date, there are no recorded cannabis deaths or overdoses.

Its estimated that the total "economic burden" of prescription opioid misuse alone in the United States is $78.5 billion a year.

Between 1999 and 2010 the states which allowed the prescription and use of medical cannabis saw the opioid overdose mortality rate drop by 24.8 percent compared with states where medical cannabis was illegal. (JAMA Internal Medicine).

Roughly 21 to 29 percent of patients prescribed opioids for chronic pain misuse them.

29%

CBD's interacts with our Endocannabinoid system to reduce inflammation while also mediating our bodies pain signalling system, both actions which may help ease the symptoms associated with pain.

In 2014, opioids killed roughly 64,000 people in the US alone, making it the leading cause of death for those under 50 years of age.

CBD has also been shown to work on neural pathways associated with addiction by inhibiting the reward-facilitating effect of addictive substance.

About 80 percent of people who use heroin first misused prescription opioids.

80%

Studies found that 64% of medical cannabis patients decreased their use of opioids and other pain medication.

- Depression
- Panic disorder
- OCD
- PTSD
- Neurological disorders such as schizophrenia

For your body:

- Pain relief & inflammation
- Helps fight cancer
- Relieve nausea
- Promotes cardiovascular health
- Lower risk of diabetes
- Treat seizures
- Reduce acne

What is CBD?

"Cannabidiol —CBD— is a compound in Cannabis that has medical effects but does not make people feel "stoned" and actually counters some of the effects of THC. The reduced psychoactivity of CBD-rich Cannabis may make it an appealing treatment option for patients seeking anti-inflammatory, anti-pain, anti-anxiety and/or anti-spasm effects without disconcerting euphoria or lethargy.

Scientific and clinical studies indicate that CBD could be effective in easing symptoms of a wide range of difficult-to-control conditions, including: rheumatoid arthritis, diabetes, alcoholism, PTSD, epilepsy, antibiotic-resistant infections and neurological disorders.

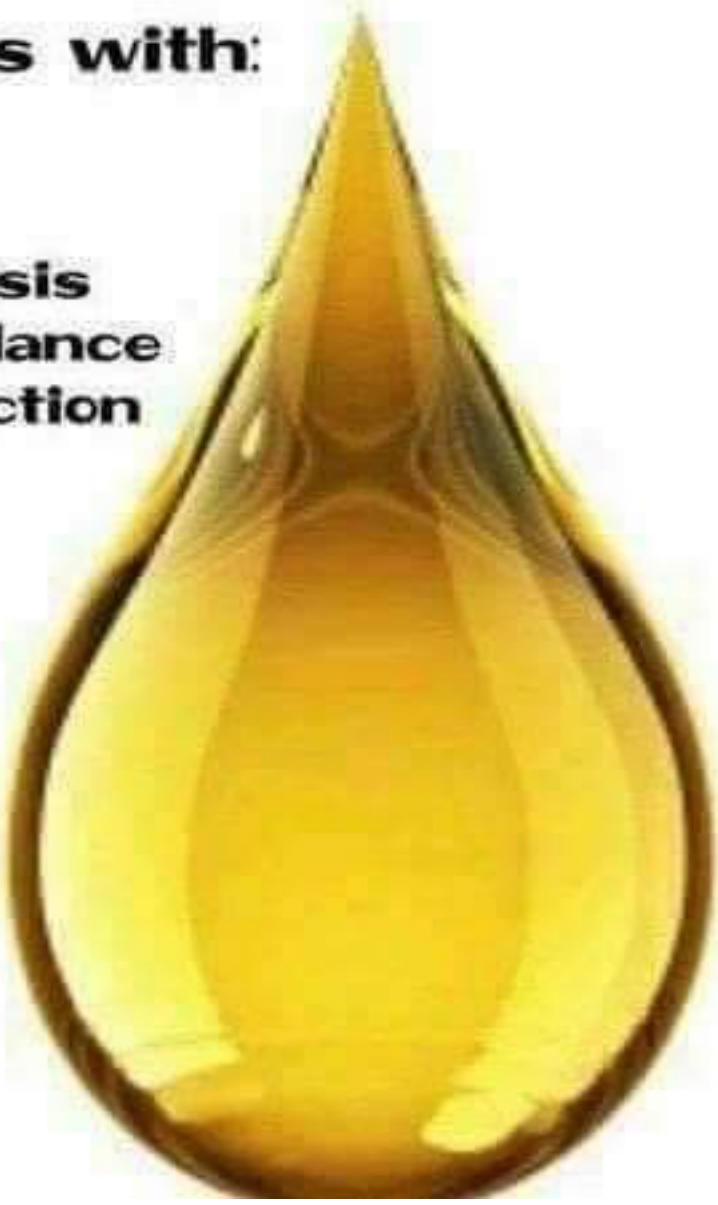

CBD has demonstrated neuroprotective effects, and its anti-cancer potential is currently being explored at several academic research centers in the U.S. and other countries."

HOW CBD WORKS IN THE HUMAN BODY

Relieves Anxiety

"Antidepressant-like and anxiolytic-like effect of cannabidol:a chemical compound of cannabis sativa" in CNS & Neurological Disorders- Drug Targets(2014)

Neuroprotective

Cannabidiol for neurodegenerative disorders:important new clinical applications for this phytocannabinoid? In the British Journal of Clinical Pharmacology (2013)

Relives Pain

"Cannabinoids and pain" in the handbook of experimental pharmacology (2007)

Reduces Risk of Artery Blockage

"The role of the endocannabinoid system in atherosclerosis" in the Journal of Neuroendocrinology (2008)

Anti-inflammatory

"Cannabidiol CBD and its analogs a review of their effects on inflammation." in Biorganic & Medicinal Chemistry (2015)

Promotes Bone Growth

"Cannabinoid receptors and the regulation of bone mass" in British Journal of pharmacology (2008)

PRELIMINARY STUDY SHOWS IMPACT OF CBD OIL ON AUTISM

61% Reported significant improvement in behavioral outbursts.

41% Showed improvement with communication problems

39% Reported improvement with anxiety

A groundbreaking research is being conducted in Jerusalem, Israel on the effects of CBD oil on children who have autism.

Preliminary results are very promising. Behavioral outbursts were "much improved" or "very much improved" in more than 60% of the patients.

Parents reported fewer disruptive behaviors, reduced anxiety and a decrease in communication problems while their kids were taking cannabis oil.

The research still has a few weeks to go and results could be released in early 2019.

CBD Facts

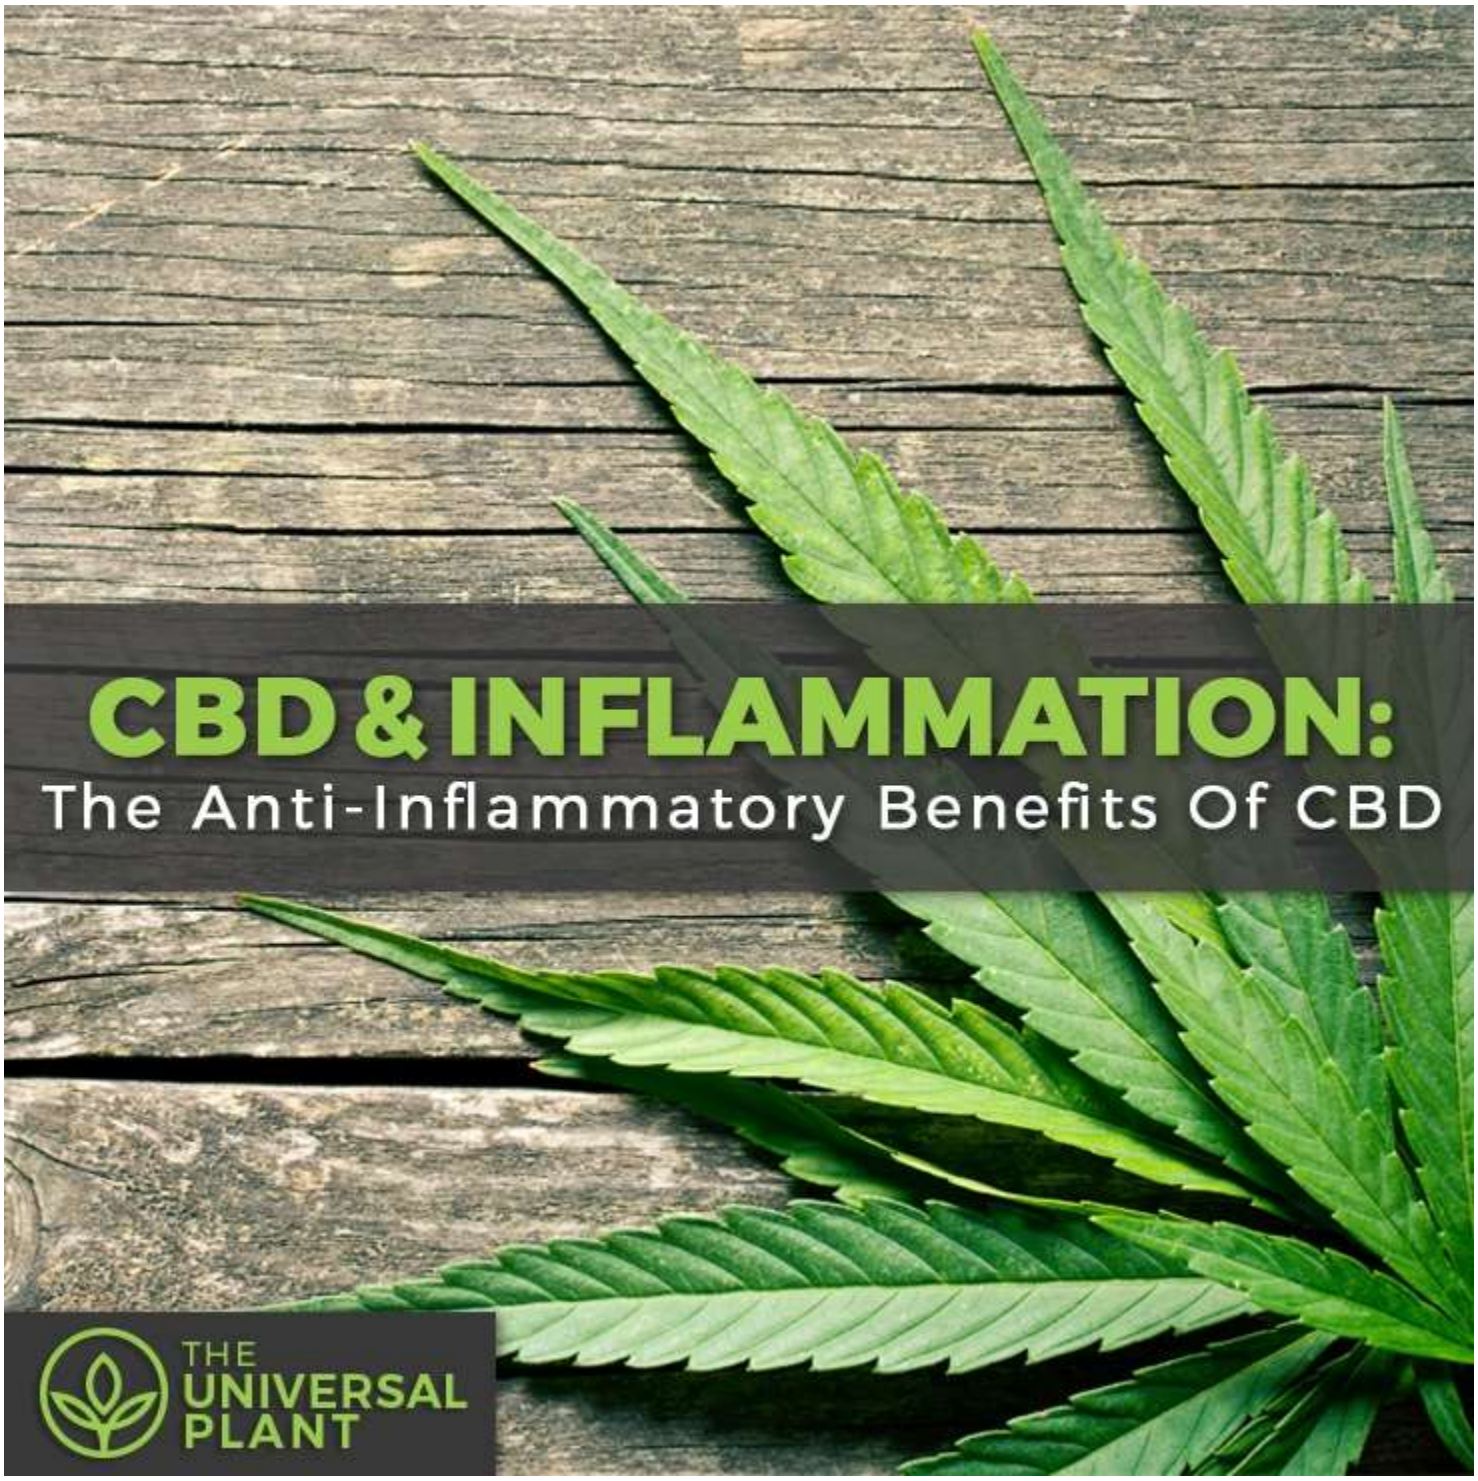

CBD improves your immune system

The fact that both CB1 and CB2 receptors have been found on immune cells suggests that cannabinoids play an important role in the regulation of the immune system.
